CLEARANCE CONDITIONS

1. The Clearance Holder shall be aware of all conditions within this Clearance and its copy must be at the site at all times.
2. The Clearance Holder shall obtain and comply with all Dubai Municipality permit requirements such as but not limited to Waste Disposal, Dangerous Goods Storage, Public Health and Safety, and relevant Technical Guidelines & Circulars available on the DM website.
3. This Clearance is only for the company's exhibition stands manufacturing facilities; and any other activities, process, machines & equipments not mentioned in the submitted EIA Summary report shall not be undertaken or installed and is not covered in this Clearance. Any other activities to be sub-contracted or outsourced shall be only thru companies with a valid DM Environmental Clearance/Permit.
4. Spray Painting works, and any source of air emissions within the premises (such as fumes and dust) shall be provided with adequate air emission control facilities; and all discharges to the air environment through chimneys and emission control devices shall be strictly in accordance but not limited to the following limits / parameters: Total Suspended Particulate (TSP) = 150 mg/Nm³ and VOC as TOC (Total Organic Carbon) = 20 mg/Nm³.
5. An annual emission inventory report based on the attached format shall be submitted to EPSS after one month from the date of this Clearance, and every first month of the year to the highlighted email address mentioned in the attached format including the test results of the stack sampling from a DAC – accredited laboratory.
6. Noise level within the workplace areas and at the plant boundary shall comply with the DM Environment Department standards.
7. Paint-contaminated materials; and all other waste to be generated from its activities (liquid & solid) classified as hazardous shall be segregated from general/process waste and to be collected separately. All means to recycle, reuse or recover such materials need to be considered before consigning it for and to be disposed off in accordance with the DM waste disposal requirements.
8. Process or trade wastewater that maybe generated from its activities, and from any other sources within the premises shall be separately collected from domestic wastewater for subsequent treatment or storage and disposal in accordance with the DM regulations.

The Environmental Planning and Studies Section (EPSS) reserves the right to revoke this Clearance for any valid infringement of the applicable Federal and Local Regulations within the Emirate or any of the conditions of this Clearance.

Environment Department Technical Guidelines & Information Bulletins are available at the DM website at
